⁹ Data shown is in CAD and is net of fees. This figure presented for illustration only. Past performance does not predict future risk/return profile. A return stream is not the only consideration when reviewing an investment.
¹⁰ We have determined increases in the value of real estate holdings using the income approach or direct comparison approach described in our significant accounting policies located in our financial statements. Some performance is driven by foreign exchange rate fluctuations.

Market Fundamentals

Extraordinary Demand. Barriers to Growth.

In the Pacific Northwest, both Seattle and Portland continue to see population growth with lifestyle drivers and high employment growth rate promoting strong net in-migration.

Seattle is home to Fortune 500 employers such as Amazon, Microsoft, Boeing, Costco, Google, and thriving technology, retail and manufacturing sectors. Portland is home to Intel and Nike, along with sports apparel, manufacturing and healthcare industry heavyweights.

Population growth in the Pacific Northwest has outpaced the US average over the last 40 years by approximately 60% and averaged 1.6% per year.⁶

Seattle and Portland have strong geographic barriers to growth, limiting new apartment supply, which contributes to strong real estate appreciation over time.

Why Invest in Apartments?

Investing in apartments has offered some of the best returns and lowest volatility over the last 40 years to real estate investors.⁶ Management believes that this trend will continue, due to the extraordinary high demand for rental housing, driven by favorable demographics and high cost of home ownership.

Discipline

Management focuses on conservative balance sheet metrics and professional internal disciplines to help protect unitholder investment.

Aligned. Experienced.

Collectively, RISE properties Trust has over 100 years of experience in the rental apartment industry. Over the past 30 years we have acquired and revitalized over \$5 billion (USD) of apartments in Washington and Oregon. The RISE Management team has investments in the fund of approximately \$42M (CAD).

Disclaimer: These materials are not to be distributed, reproduced or communicated to a third party without the express written consent of RISE Properties Trust. These materials should be read in conjunction with the offering memorandum dated March 31, 2023, including the risk factors identified therein. This report has been provided for general information purposes only and is not intended to be a solicitation to purchase units of the Rise Properties Trust or advice regarding the suitability of the investment for specific investors. Any opinions expressed herein are effective as at the date of the report. Management does not undertake to notify the reader of any subsequent change of circumstance or opinion. Historic returns set out above are net of all fund expenses and management fees (both fixed and carried interest). We have determined increases in the value of real estate holdings using the income approach or direct comparison approach described in our significant accounting policies located in our financial statements. As we have relied on estimates to determine the value of the properties, the rates of return shown may vary if different estimation methods are applied. Calculated returns are based on the assumption that all dividends received by unit holders are re-invested in further units of the trust and, that dividends and other distributions are earned in a tax-free account. Returns will be lower to the extent either of these assumptions are untrue. Past results are not indicative of future performance. For further information and disclosures please refer to the investor section on our website.
